

Getting There: A Transportation & Workforce Convening

Transportation continues to emerge as one of the most persistent barriers to employment and workforce participation across Southwest Ohio. Whether it's accessing training, getting to work reliably, or advancing in a career, transportation challenges can limit opportunities for students and workers and restrict employers' access to talent.

This panel discussion brings together leaders to explore transportation solutions, including sharing promising practices, evolving policies, and identifying opportunities to better connect people with jobs, training, and economic opportunity.

Panelists include:

- The Honorable Denise Driehaus, Hamilton County Commissioner
- Wim Huijs, CEO, Advanced Manufacturing Industry Partnership (AMIP)
- John Ravasio, Chief of Staff, Metro
- Sara Betts, Director of UC Aspire

Moderator: Jesse Grissom, retired President of Operations, Kao USA, Inc., and Chair of the WCSO's Business Engagement Committee

Thursday, Sept. 10

9-10:30 AM
